

Building Expansion Action Team (BEAT) Update-October 2009

The BEAT team has met several times since July on the following topics:

- ❖ Defining Peace's ministry strengths
- ❖ Defining Peace's ministry goals
- ❖ Prioritizing the most immediate space needs
- ❖ Reviewing the preliminary architect renditions and suggestions
- ❖ Developing a basic "our own in house sketch" of space needs which was relayed onto the architect
- ❖ Obtaining feedback: In August we held a mini-session in which we visited with a few members of the congregation that represented a "wide spectrum" of the individuals (such as youth, older members, non member from another congregation, board member, congregation member at large) just to share ideas and feedback based on information that we shared with them in relation to expansion.
- ❖ Determining the feasibility of how the existing structure could be built on to
- ❖ Visiting again with the architect to share suggestions and ideas
- ❖ Future Plans: No date set yet, but we are planning to have another mini-session (different group than the last) to again share information, ideas and input.

There will be a more in-depth update at the November Voter's Meeting, please attend!

Voter's Meeting: November 8th at 2pm in the Fellowship Hall
