

Building Expansion Action Team (BEAT) Recommendation Presented at Information Meeting

- The Building Expansion Action Team (BEAT) has been prayerfully working for many months to seek God's direction to accomplish Peace's Strategic Ministry Planning goal of "creating more space for ministry".
- On Sunday, January 24, the team presented an overview of the process they used and the 5 options they researched for building expansion as well as the reasons for their recommendation. A two-phase project was recommended which will expand education space in the first phase.
- After questions and discussion with those in attendance at the informational meeting, comments were collected and are being reviewed prior to presenting a final recommendation to the congregation
- Please continue to support the team with your prayers

The BEAT Team members"
